

Farid Group is the leading manufacturer of Net & Twine products in Bangladesh. With over 40 years of experience, we are now producing the best quality Nets and Ropes using German and Japanese Technology and machineries.

We believe, quality and commitment are the most important values to succeed

Net and Twine Products

FARID GROUP

Net & Twine Production:

Total number of factories: 6

Total size of factories: **20,000 Sq.m**

Total Employees: **3000+**

Daily Net production: **12 Tons**

Daily Rope production: **15 Tons**

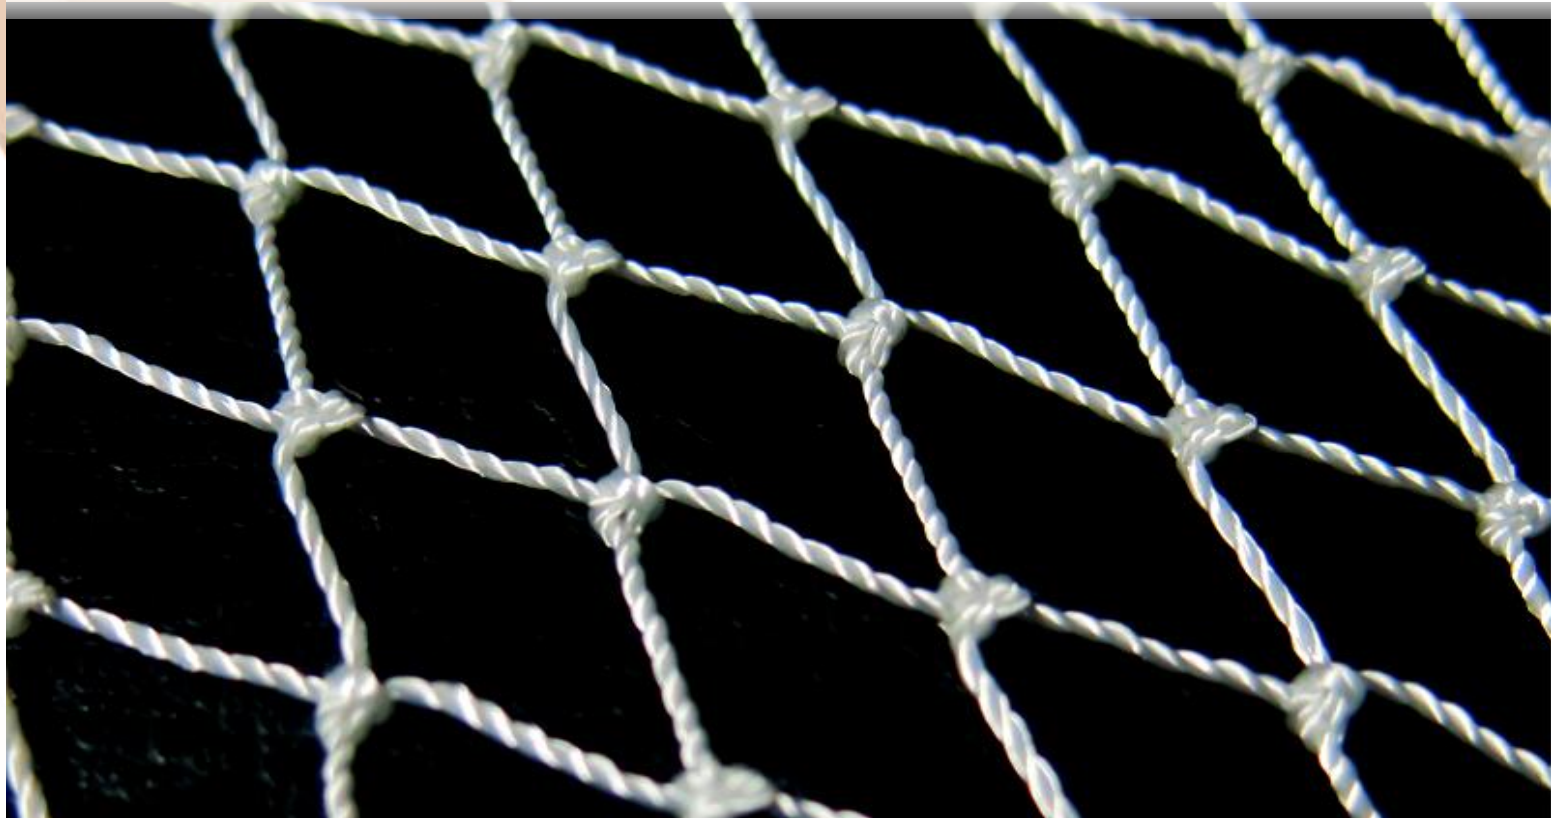

Fishing nets – Nylon/ Polyester multifilament gill nets, HDPE nets, Cast nets, Tyre cord nets

Other nets - Fencing nets, Vegetable nets, Poultry nets, Construction safety nets

Ropes – PP Danline rope, HDPE rope, Jute rope, Lead rope, Tiger rope, Steel wire twine

Main Products:

Nylon/Polyester multifilament fishing nets

Multifilament Fishing Nets: We produce high strength Nylon/Polyester multifilament fishing nets, which are appreciated for the attributes of excellent breaking strength, high abrasive strength & perfectly tightened knots. These nets can be customized as per buyer's requirements and available in non-slip single or double knot.

Technical Specifications

Material: NYLON or Polyester

Style: Multifilament

Knot Type: Non-slip Single or Double

Thread: 210D/2ply-75ply

Twist: Any TPM

Mesh Size: 10MM-400MM

Depth: 850MD

Selvage: Thick

Yarn Breaking Strength: 8.5 g/Denier

Color: Any Color

Feature: High Strength

Product Information

Certification: ISO9001:2008

Brand: Lion

Factory location: Bangladesh

Production capacity: 7 Tons per Day

Packaging: As per requirement

Pricing & Payment

Unit Price: USD 3 - 10 per KG

Shipping Terms: FOB

Minimum order: 2000 KG

Port: Chittagong, Bangladesh

Payment Terms: T/T or L/C

HDPE Nets

Our PE Nets are made from HDPE granules using High Tech Extrusion line. Each product is subjected to rigorous tests for weather ability. Beside HDPE fishing nets, we also produce HDPE nets for vast range of netting applications, such as; Fencing nets, Vegetable nets, Poultry nets, Construction safety nets, etc.

Technical specifications

Material: HDPE

Knot Type: Non-slip Single or Double

Thread: 320D/1ply - 320D/50ply

Twist: Any TPM

Mesh Size: 10MM-400MM

Depth: 850MD

Selvage: Gathered

Yarn Breaking Strength: 5.5 g/Denier

Color: Any Color

Feature: High Strength

Product information

Certification: ISO9001:2008

Brand: Lion

Factory location: Bangladesh

Production capacity: 7 Tons per Day

Packaging: As per requirement

Pricing & Payment

Unit Price: USD 3 - 8 per KG

Shipping Terms: FOB

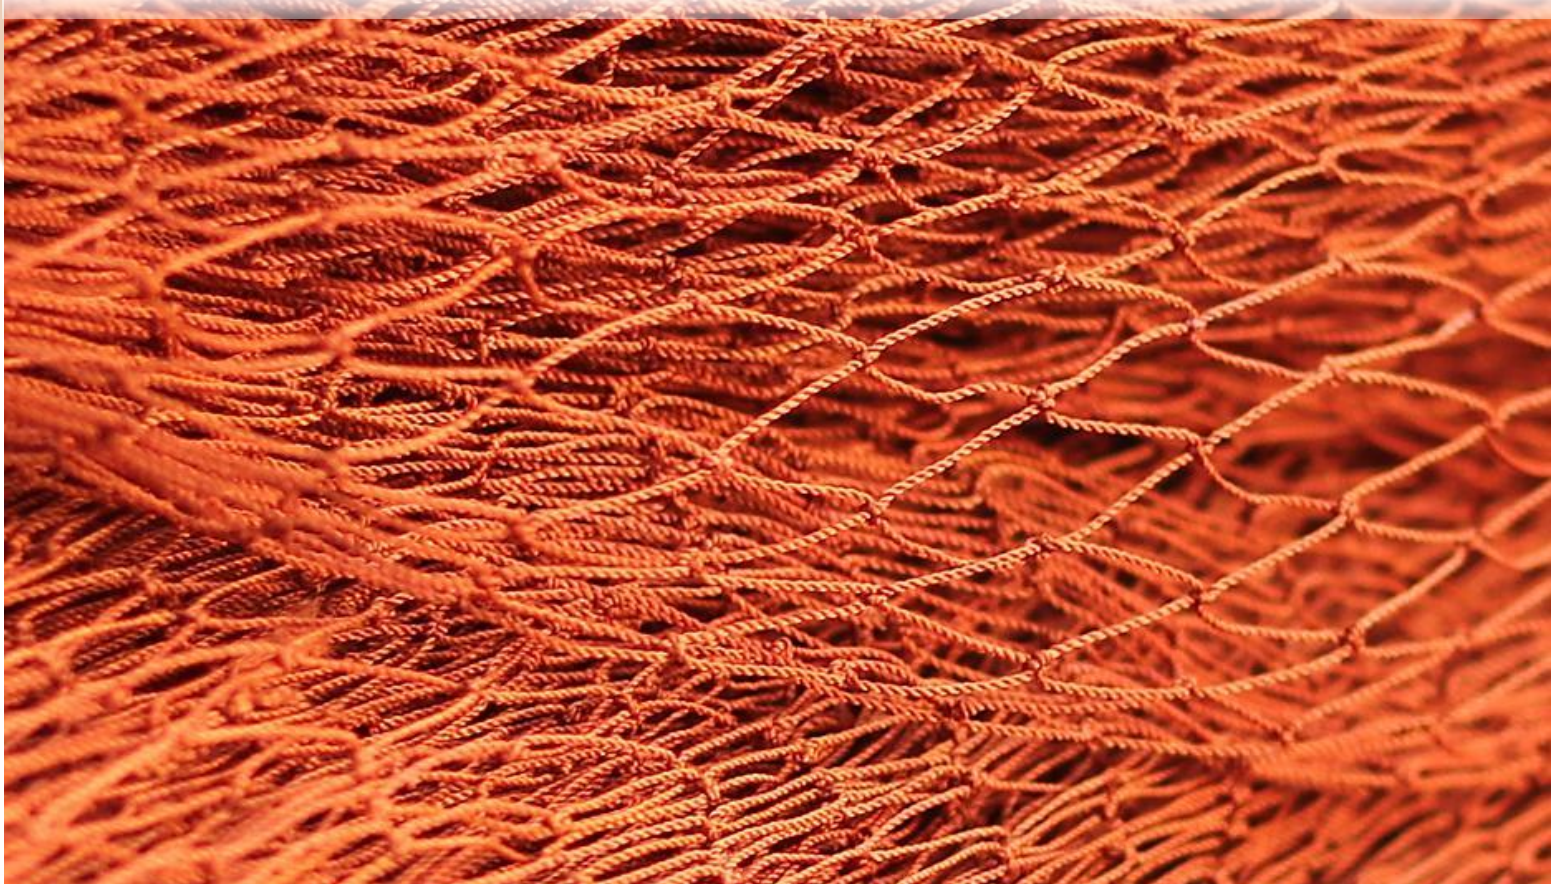

Minimum order: 2000 KG

Port: Chittagong, Bangladesh

Payment Terms: T/T or L/C

Tyre cord Nets

Tyre cords are high tensile-strength cords, used as reinforcing material to bolster the strength of vehicle tyres (tires). Our Tyre Cord nets are made with strong, high tenacity Polyester or Nylon yarn. They are dipped in special resin to make the nets stiff and firm. Tyre Cord fishing nets are mostly used for deep sea fishing.

Technical specifications

Material: Nylon/Polyester

Yarn: Multifilament

Knot Type: Non-slip Single or Double

Thread: 1000D/2ply - 1500D/3ply

Twist: Any TPM

Mesh Size: 12mm to 300mm

Depth: 520MD

Selvage: Gathered

Yarn Breaking Strength: 8 g/Denier

Color: Any Color

Feature: High Strength

Product information

Certification: ISO9001:2008

Brand: Lion

Factory location: Bangladesh

Production capacity: 7 Tons per Day

Packaging: As per requirement

Price Quotation

Unit Price: USD 5 - 8 per KG

Shipping Terms: FOB

Minimum order: 2000 KG

Port: Chittagong, Bangladesh

Payment Terms: T/T or L/C

Fencing, agriculture & Protection Nets

Our Fencing nets, agriculture nets and protection nets are made from HDPE granules using High Tech Extrusion line. Each product is subjected to rigorous tests for strength, capacity and weather competence. Our nets are used as Fencing nets, Vegetable nets, Poultry nets, Garden Protection nets and Construction safety nets.

Technical specifications

Material: HDPE

Yarn: Monofilament

Knot Type: Non-slip Single or Double

Thread: 320D/3ply

Twist: Any TPM

Mesh Size: 85mm

Depth: 610MD

Selvage: Gathered

Yarn Breaking Strength: 5.5 g/Denier

Color: Any Color

Feature: UV Protected

Product Information

Certification: ISO9001:2008

Brand: Lion

Factory location: Bangladesh

Production capacity: 7 Tons per Day

Packaging: As per requirement

Pricing & Payment

Unit Price: USD 3 - 5 per KG

Shipping Terms: FOB

Minimum order: 2000 KG

Port: Chittagong, Bangladesh

Payment Terms: T/T or L/C

PP Danline Rope

PP Danline Rope: Danline rope is made of finest polypropylene fiber & we are one of the most distinguished manufacturers of PP Danline rope in Bangladesh. We are counted most dependable suppliers of PP Danline ropes due to absolute stability & strength of our rope. Our products come in internationally accepted designs that support optimum performance. These products are offered within high affordable price. Danline rope Polypropylene ropes combine a higher breaking strength, dimensional stability & economical price. Our PP Danline ropes are used for various applications in fishing, shipping and also used as mooring ropes & heavy industrial handling.

Technical specifications

Material: Polypropylene

Size: 1.5mm - 50mm

Construction: 3 & 4 strand

Strength: wet/dry 100%

Specific gravity: 0.91

Elongation: Moderate

Water absorption: None

Melting Point: 165 c

Color: Any color

Chemical Resistance

Acids: Excellent

Alkalis: Excellent

Oil/ Gas: Very Good

Elongation: 22% at break

Features

- UV protected
- Higher breaking strength
- Light weight
- No slippage
- Inert to chemical
- Abrasion resistance
- Better grip
- Minimal elongation
- Durable & ultraviolet stabilized
- Excellent shape retention
- Fully balanced & torque free

PP DANLINE ROPE

Product Information

Certification: ISO9001:2008

Brand: Lion

Factory location: Bangladesh

Production capacity: 10 Tons / Day

Packaging: As per requirement

Pricing & Payment

Unit Price: USD 2 – 3.5 per KG

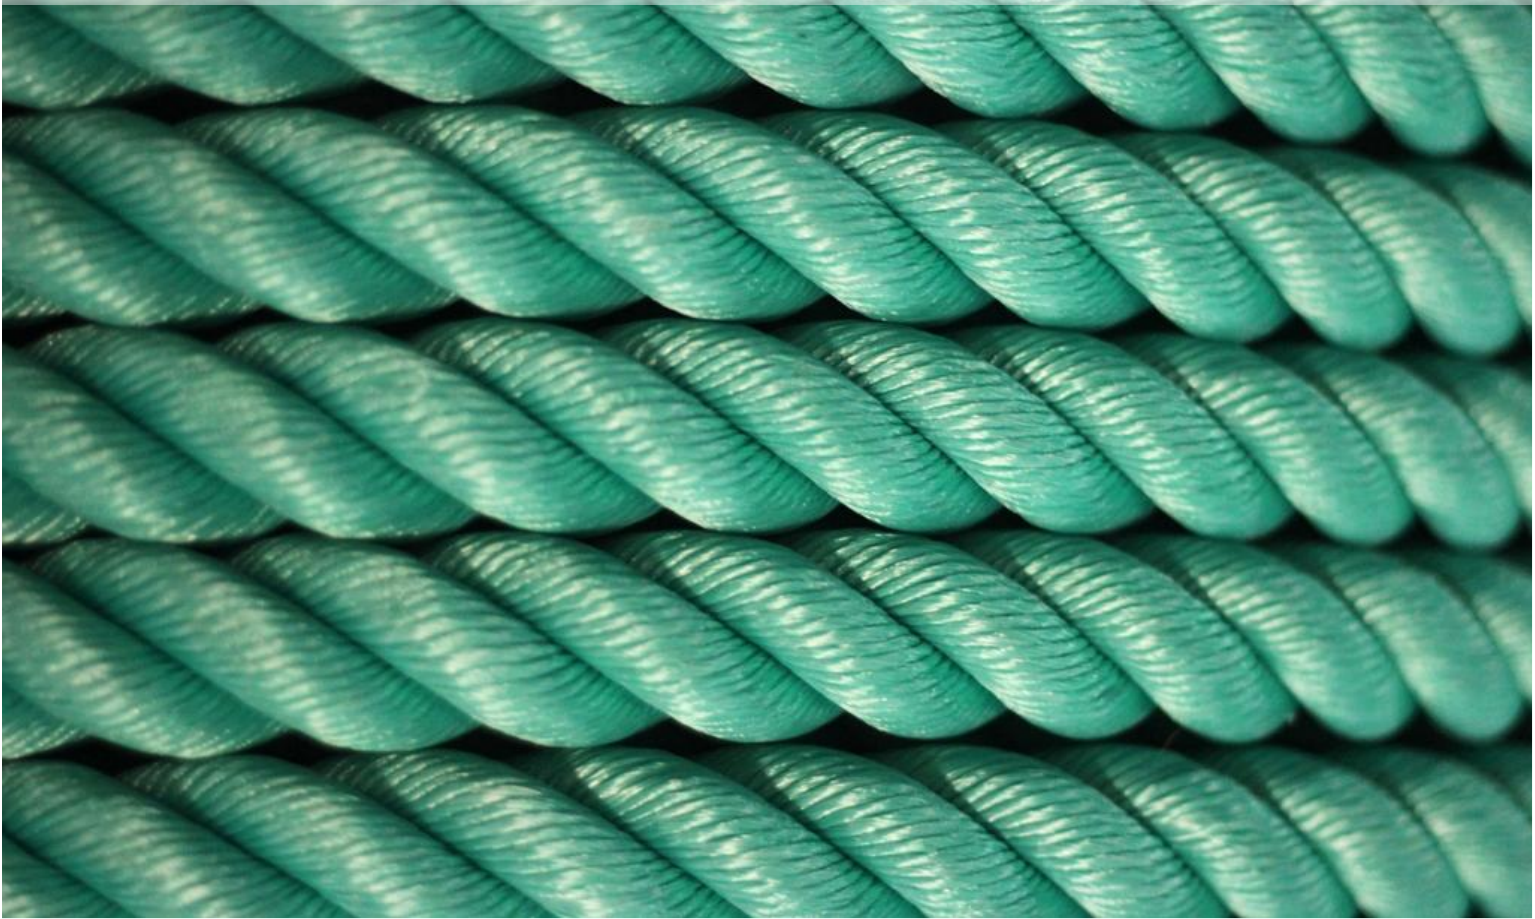

Shipping Terms: FOB

Minimum order: 2000 KG

Port: Chittagong, Bangladesh

Payment Terms: T/T or L/C

HDPE Twine & Rope

HDPE Twine & Rope: Our HDPE ropes are made of complete virgin, high density polyethylene. These ropes are “z” twist, medium laid, 3 stand ropes. We are prime manufacturer of an exclusive assortment of HDPE Ropes in Bangladesh. The excellent strength and flexibility possessed by our ropes make them widely demanded across various parts of Bangladesh. These precision-engineered ropes feature optimum abrasion resistance & improved durability and thus, of high utility for the market.

Our HDPE ropes are known for consistent performance, high quality, competitive price and unyielding tenacity account for more than two decades.

Technical specifications

Material: HDPE

Size: 1mm - 36mm

Construction: 3 & 4 strand
